DR. CURTIS'

Medical Work,

MANHOOD!!

200th Edition Just Issued

—BY—

E. de F. Curtis, M. D., etc.,

AUTHOR OF

"Manhood," "Medical Essays on Marriage," "Exposure of Quacks and Quackery," "The use of the Microscope in Certain Cases of Debility," etc.

A MEDICAL ESSAY ON THE CAUSE OF Premature Decline with directions for its perfect restoration addressed to those suffering from the destructive effects of Nervous and Physical Debility Exhausted Vitality, Abuses of the system and all kindred ailments, with instructions on the obligations and objects of Marriage

This work of which over 200,000 copies have been issued is written in a plain and sympathizing manner on the subjects under consideration without any of the professional clap trap of the current but with the experience of the author in his twenty years treatment of these diseases which strange to say seem to be ignored by the general run of respectable practitioners

Clergymen, Physicians and most intellectual men of both hemispheres have recommended its perusal and by reference to the "Opinions of the Press" it will be readily seen in what estimation the work on "Manhood" is held

EXTRACTS

FROM

REVIEWS OF THIS WORK,

Commencing with the Year 1850.

Manhood by Dr Curtis—In this age of pretension when the privileges of the true are constantly usurped by the false and fraudulent, it is difficult to afford the sufferer from nervous debility the unerring means of judgment where to seek relief The author of this work has obviated the difficulty His experience and reputation in the treatment of these painful diseases are the patient's guarantee, and well deserve for the work its immense circulation—Era

Curtis on Manhood should be in the hands of youth and old age It is a medical publication ably written and develops the treatment of a class of painful maladies which have too long been the prey of the illiterate and designing—United Service Gazette

Curtis on Manhood—It develops the fearful shoals on which a large proportion of human happiness is wrecked and furnishes a chart by which they may be avoided and escaped Fortunate for a country would it be did its youth put into practice the philanthropic and scientific maxims here laid down—one cause of matrimonial misery might then be banished from our land and the race of the enervate be succeeded by a renowal of the hardy vigorous spirits of the olden time—Chronicle

Curtis on Manhood—This is really a valuable work for pointing out the diseases resulting from the excesses the evils of which are manifested in every insane asylum, no less than in the shattered constitution of those indulging it will do much to prevent the vice which by its prevalence among the young has so much influence on the present as on the future well being of many—Herald

Dr Curtis Work Entitled "Manhood" is one of the few books now coming before the public on a subject which can lay claim to the character of being strictly professional, at the same time that it is fully intelligible to all who read it The moral and medical precepts given in it render it invaluable—Magnet

Curtis on Manhood—This is truly a valuable work, and it should be in the hands of young and old The professional reputation of the author, combined with his twenty years experience as medical referee in the treatment of nervous debility etc fully accounts for the immense circulation which his popular and ably written medical treatise has obtained—Sunday Times

Curtis on Manhood—This work which for twenty years has stood the test of professional criticism and empirical hostility, treats in a plain and sympathizing manner on the various disqualifications and impediments arising from nervous excitement and debility, and to invalids suffering from youthful errors and excesses it will be found valuable and useful—Record

Curtis on Manhood—The author has conferred a great boon on society by publishing this little work in which are described those diseases which produce decline in youth, or, more frequently, premature old age—Daily Telegraph

Curtis on Manhood—It is the duty of all men to study the laws of their body no less than those of their mind In the pages of this work will be found golden rules for regulating the one and preserving the other—Mark Lane Express

REDUCTION IN GAS.

Important to Landlords and Gas Consumers.

SAFETY AND ECONOMY.

Office Oakland Gas Light Co, September 1st 1876

IN CONTINUANCE OF THE POLICY FOLlowed by this Company since its formation, to lower its rates as warranted the Oakland Gas Light Company hereby give notice, that from and after the 1st day of October next the price of gas will be reduced to

$4 PER THOUSAND CUBIC FEET.

Considering the value of coal and labor the limited use of gas and the distance between the points of consumption, Oakland is one the most cheaply lighted cities in the Union

Some of the advantages of cheap gas are

1st A daily saving in the cost of one of the necessaries of life

2d A decrease in the number of fires caused by the use of the dangerous distillates of Petroleum

3d A saving of human life by substituting stationary lights for the brittle of lamps

It is hoped that this further reduction will be favorably accepted by the public, and that the Company will receive many accessions to the number of its consumers

COUNTING THE ELECTORAL VOTE

The discussion of the question as to who shall count the vote under the Constitution has hitherto been confined almost exclusively to the two Houses of Congress. Under conditions favorable for an assumption of power not granted in terms, but rather withheld, Congress has not been slow under the law-making or some other indefinite grant, power over subjects where there is any sort of ambiguity. And inasmuch as they were interested in maintaining with scrupulous nicety the fullest extent of power which they could at all justify, they seemed to view the question from that interested standpoint, and their arguments tend to the assumption of the power, as though it was beyond question.

The principal discussion of the power to count the vote arose in the first session of the present Congress, upon a bill introduced defining the mode of counting the electoral vote and declaring the result. In this debate most of the Senators now in the Senate took part and have committed themselves to one or the other side of the question as to whether the President of the Senate or Congress shall count the vote, most of them assenting to the claim made by Congress. And it was further claimed that under the right to count was embraced the right to determine what should be counted as a vote; and to ascertain that they had power to go back of the returns certified to the President of the Senate.

This right or claim was based on the fact that, the language, being ambiguous, in that it read: The President of the Senate in the presence of the Senate and House of Representatives shall open all the certificates and the vote shall then be counted," it was contended that if the President of the Senate was to have full power over the count, it would have read: "shall open all the certificates and count the votes." But might it not with equal force be said, if it was intended to confer this power on Congress, that it might read: "shall open all the certificates and the votes shall then be counted by Congress." Either would have made it more certain as to whose duty it was. But when absolute control is given to an individual designated by the Constitution—the President of the Senate—over the returns of lists of the votes of electors of the several States for President, to retain the custody until Congress shall fix a time when they can be present for the purpose of counting, and where the Constitution provides that in case no person has been elected President or Vice-President by the electors, the House shall elect the President and the Senate the Vice-President, there is, we think, sufficient reason given for the presence of the two Houses at the counting, without the necessity of their in any way participating in it.

The reason given why the President of the Senate should not count the vote and declare the result except as directed by the two Houses, was that it was giving one man too great power— as if one man, when the whole weight of responsibility rested upon him, would be more liable to err than when the responsibility of the act was diluted among a number.

But it seems to us that in taking this view in the absence of any Constitutional provision for it, Congress is going outside of its duty and power. Especially if we call to mind the intent of the framers of the Constitution, which was to place the President elect above all obligations to Congress for his election. And it is not unreasonable to presume that the framers of the Constitution, knowing the importance of the power to be conferred, should select the person of all others least liable to improper influence, inasmuch as he would be presumed to be a person eminent for his ability, justice and integrity, or he would not be selected as the presiding officer of so eminent and conservative a body as the United States Senate is (or ought to be). It will be observed that the returns are not to be made to the Vice-President, but to the President of the Senate, whoever he may happen to be. If it be true that the framers of the Constitution intended that the Chief Magistrate of the nation should be elected by the independent of congressional interference, then it cannot be that Congress can control or count the electoral votes of the United States.

NOTES AND EXCERPTS.

Sympathizing Stranger—"Bless me! How did you manage to fall like that sir?" Irritated Equestrian (who has come to grief)—"Confound it, I couldn't remain hanging in the air after the horse runs away from me—could I?"

The oratorio "Esther" was to be sung in a Connecticut town. The man who was cast for Hegai found that on the bills the name was printed Hogai, which was so much like "hog eye" that he believed a personal insult was intended, and refused to appear.

"England is the home of eccentricity," say foreigners. It might be added, more especially of eccentric testators. Early in the century a rich Englishman left his daughters their weight in one pound bank notes. The eldest got £51,200, the youngest £57,344.

The Abbe Liszt's two worldly predilections are said to be *cafe noir* and small Roman cigars. He speaks many languages and copies his works himself, his MSS. having no erasures or corrections, and his writing being fine, free, running, and fantastic.

Mr. Spurgeon is giving a lecture upon "Strange Scenes," with particular reference to odd incidents in which preachers, noted or otherwise, have been concerned. Somewhere in it he says that the worst scene which could be witnessed was half a congregation asleep, and the preacher snoring eloquently.

New York pastors, with very few exceptions, complain of the difficulty of getting enough money to pay the current expenses of their churches, and many are obliged to "shin around," as they say in the street, to obtain cash (often by loan) to square up on settling day. A good deal of the money loaned on church buildings by savings banks and insurance companies is, I think, rather unsafely placed. I know one church, with a congregation [illegible] wealth, which carries mortgages to the amount of $90,000. The property would hardly bring that amount if it were offered by auction. Another church, still less wealthy, is mortgaged for $70,000.

An inventory of the property possessed by the State has been published in France. The value is estimated at 3,598,000,000 francs, or about $719,600,000. The forests are rated at 1,260,000,000 francs, and the palaces and public buildings, exclusive of the Tuileries and Louvre, at about 429,000 000 francs. The estimate of the two latter is not published. Professor Schmidt has called attention to a phenomenon observed by him in the constellation of the Swan, which he regarded as the destruction of a star by the sudden ignition of the atmosphere of hydrogen gas with which it was surrounded. The astronomical world has been tremendously exercised over the occurrence. Professor Loomis, of Yale College, however, states that his attention had been called several weeks ago to the fact that the star in question had suddenly increased in brightness to perhaps the third magnitude. Since then the star had fallen two or three magnitudes. It had not burned out, but it was still visible. Such variations in brightness of stars, according to the Professor, was not uncommon. The cause of such phenomena is yet a matter of conjecture among astronomers. It is not improbable that the cause is the falling into the star of some luminous body, such as a comet or a shooting star. It is a common theory that the continuous intense heat of the sun is caused by the accession of combustible bodies.

The Mark Lane Express says that if ever there was a time when it was necessary to stimulate improvement, not only in the breeding but in the fattening of Irish cattle, it is the present. Within the past twelve months a trade has grown up with the United States which has already interfered with the operations of Irish cattle dealers. The importation of living animals hence was of comparatively little damage to the Irish. Their just ground of apprehension rests in the dead meat trade. "It must be confessed," says the writer quoted, "that the American trade more especially the trade in dead meat, is a hard nut to crack, for when the boundless resources of North America for the breeding of cattle are taken into account, it is clear that the opposition to the home trade arising from supplies of living animals imported from Continental Europe, dwindles into nothing with what may be expected from the far West." A correspondent of the same paper writes, "almost a panic has been created in the agricultural districts of Shropshire and Staffordshire by the report of large quantities of frozen beef coming from America or Canada." But at present the price of English beef remains what it was a year ago.

James O. Woodruff, a wealthy merchant of Indianapolis, is organizing a university excursion around the world, and is now in New York looking for a vessel. Prof. Steele, of Michigan University is in full accord with his plans. It is proposed to engage a steamship of 1,000 tons burden, fitted out with staterooms and saloons for study, work, and lectures and provided with steam launches and a large number of boats. It will be commanded by experienced officers and a trained crew, and will set out from New York early in July on a two years' cruise. The vessel will be supplied with a large library and ample scientific apparatus. Provision will be made for the accommodation of from 60 to 80 students, who will be accompanied by a faculty of 10 Professors. In a word, it will be a traveling University. The vessel will touch at the Bahamas, Tortugas, and Havana, and then cast anchor at the mouth of the Amazon. Thence the party will set sail for the Straits of Magellan, touching at various points. Valparaiso will be the next objective point; thence westward to the Polynesian Islands, Australia and New Guinea; thence to Macassar, Borneo, and the Philippine Islands; thence to Hong Kong, Canton, Tokio, Singapore, Malacca, Sumatra, and Java; thence up the Straits of Malacca to Calcutta; thence to Ceylon, Bombay, and Alexandria via the Suez Canal; thence to the Holy Land, Cyprus, Smyrna, Constantinople, Athens, Troy, Naples, Pompeii, Rome, Pisa, Florence, Venice, Verona, Milan, Genoa, Gibraltar, and Malaga; thence to Havre, London, the Azores, and New York. The whole distance to be traveled is estimated at 60,000 miles. The number of students will be limited to 60 [illegible] and the expense for each will probably foot up about $2,000 a year.

PATENT SLATE PAINT!

Fifteen Years Established

Mixed ready for use.

Fire-Proof, Water-Proof, Durable, Economical & Ornamental.

A roof may be covered with a very cheap shingle, and by application of this slate be made to last from twenty to twenty five years Old roofs can be patched and coated looking much better and lasting longer than new shingles without the slate, for

One-third the cost of Re-shingling.

The expense of slating new shingles is only about the cost of simply laying them. The paint is FIRE-PROOF against sparks or flying embers, as may be tested by any one

IT STOPS EVERY LEAK.

And for tin or iron has no equal, as it expands by heat contracts by cold, and never cracks nor scales. Roofs covered with Tar Sheathing Felt can be made water tight at a small expense, and preserved for many years. This Slate Paint is

EXTREMELY CHEAP.

Two gallons will cover a hundred square feet of shingle roof, while on tin, iron, felt, matched boards, or any smooth surface, it will go much farther, and although the paint has a heavy body it is easily applied with a brush

No Tar is used in this Composition,

Therefore it neither cracks in winter nor runs in summer. On decayed shingles it fills up the holes and pores, and gives a new, substantial roof that will last for years. Curled or warped shingles it brings to their places, and keeps them there. It fills up all hole in felt roofs, stops the leaks—and although a slow dryer, rain does not affect it a few hours after applying. As nearly all paints that are black contain Tar be sure you obtain our genuine article which, for shingle roofs, is

CHOCOLATE COLOR.

When first applied, changing in about a month to a uniform slate color, and is, to all intents and purposes, Slate On

TIN ROOFS.

Our red color is usually preferred, as one coat is equal to five of any ordinary paint. For

BRICK WALLS

Our Bright Red is the only reliable Slate Paint ever introduced that will effectually prevent dampness from penetrating and discoloring the plaster.

These paints are also largely used on outhouses and fences, or as a priming coat on fine buildings

Our only colors are Chocolate, Red, Bright Red and Orange.

GRAND CENTRAL-HOTEL,

TWELFTH STREET,

(Between Webster and Harrison,)

OAKLAND.

THIS HOTEL IS LOCATED IN THE MOST delightful portion of Oakland, is finely furnished, and combines all the modern conveniences, including Elevator, Private Park and Croquet Ground. Its cuisine is second to none. The lovely scenery, including carriage drives, fine private residences and parks, ardent sunshiny, salubrious air, picturesque lake located within an evergreen oak grove, limited only by circuit of distant hills, all of which offer views unrivaled in Europe or America, have made Oakland very popular with Eastern people. Oakland, accessible to San Francisco by ferry every thirty minutes, has population of 40,000, most of whom are San Francisco merchants and their families, finding shelter here against the fogs and winds prevailing in San Francisco. All trains from the East and inland arrive in Oakland one hour earlier than in San Francisco, and depart one hour later.

Baggage checked through to San Francisco will be delivered at the hotel two hours after the arrival of the train in Oakland.

Prices for Room and Board $2.50 and $3 00 per day.

Monthly arrangements at lower rates.

Omnibuses and Buggies hired at half the rates of San Francisco.

J. W. YOUNG and PENBROKE MURRAY, Proprietors

Mr. Young, during the greater part of his life has devoted his entire time to hotel business; he at one time being manager of the leading hotel in St. Louis; also, of the Veranda and Planters Hotel in New Orleans. Mr. Murray, for a number of years was identified with the local government of Virginia City, and his genial ways have found for him hundreds of friends. The management of the hotel was never in better hands.

Augustus A. Rosenberg,

PROFESSOR OF MUSIC,

Respectfully informs the residents of Oakland and vicinity that he will receive pupils for thorough

Instruction on the Piano or in Singing.

HE WILL EXERCISE THE UTMOST CARE to develop a correct and tasteful style of execution, and by discarding everything that tends to produce a mere superficial acquaintance with music, he will endeavor to keep pace with the rapid advancement of pupils toward that more thorough knowledge of the science so rarely acquired under many of the existing methods of teaching.

For further information, terms, etc., apply to Rudolph & Co, 1003 Broadway, Oakland, or at residence,

AUG. A. ROSENBERG,

CHILDREN'S HOME.

What the Ladies' Relief Society is Doing for Orphans.

A Visit to Their Institution at Temescal.

More Money and More Room Needed for the Indigent Waifs.

Of the various Benevolent Societies of this city, probably none are doing a more genuine work of philanthropy than the Ladies' Relief Society, which was organized some six years ago. The year following its organization the Society purchased a substantial and handsome dwelling-house and ten acres of land at Temescal, and founded a Home for orphan children, and the children of parents disabled, or from any cause unable to support their offspring.

THE HOME

Is situated in a very healthy location at Temescal, about an eighth of a mile east of Telegraph avenue, amid a thrifty grove of Eucalyptus trees and other shrubbery. The building and grounds are paid for and the Society entirely out of debt. Yesterday a TRIBUNE reporter rode out to Temescal, and paid a brief visit to the institution and made some inquiries as to its management, which were courteously responded to by the Matron,

MRS. PERKINS,

A middle-aged English lady, with intelligent, hazel eyes and a prepossessing countenance, who has had the management of the Home ever since its first establishment. She now has under her charge forty children, the youngest of which is eighteen months old and the oldest a girl of ten years. The latter will soon leave the institution, arrangements having been made for giving her a permanent home in a good family. The Home will have been in existence five years next August.

MORE ROOM WANTED.

The Home depends for support entirely on private contributions. Not being a sectarian institution it receives aid from philanthropic people of various denominations. The present building is entirely too small for the accommodation of forty children, and applicants are necessarily turned away every week for want of room to accommodate them. On the left of the entrance-hall is a moderate-sized parlor used as a reception-room. On the opposite side of the hall is a duplicate of this room, which is used as

AN INFIRMARY,

In case any of the children are seriously ill. For more than six months there has been no sickness, and the apartment is used as a sewing-room, or, as the Matron calls it, the "rag-room." Back of this is a bath-room and some closets; and back of these, on the eastern front, is a room extending two-thirds of the length of the building, which is used as a dining-room, and in rainy or windy cold weather, it is used as a play-room. Some of the boys and girls admitted to the Home have been

DESERTED BY BOTH FATHER AND MOTHER.

In other cases the fathers are dissipated or dead, and the mothers work and pay a trifle towards the keeping of their children here. Whenever practicable or possible good places are found for these children in private families, and sometimes the parents themselves get able to take them out and support them. Some are here through the dissipation of their natural protectors, and others through the stern necessity of unavoidable misfortune.

DOCTOR LILIENCRANTZ

Humanely donates medical advice and medicines to the inmates of the Home without charge. On week days such of the little ones as are old enough are sent to the public school, and on Sundays they are required to attend Sabbath School. Both the kitchen and dormitories are entirely too small. The boys occupy two rooms on the upper floor—there being several beds in each. The infants occupy an adjoining room, and an attendant sleeps in the same apartment to minister to their wants.

THE GIRLS

Occupy a large room on the opposite side of the hall, and a door leading from it to the Matron's room is left open during the night. The children have an ample play-ground in good weather, and all the liberty they could desire. Mrs. Perkins states that thus far the Home has been fortunate in the character of the children admitted. There are no hard cases among them—no cases of precocious vice that have necessitated removal. The rooms are very neatly kept, and in fact both the house and its surroundings are models of neatness. The Matron is evidently a lady whose experience and benevolence admirably adapt her for the important position she occupies, and it is to be hoped that the liberality of the public will soon give her the additional building so badly needed.

ARREST OF BURGLARS.

Three Rascals Arrested by Officer Wilson Last Night, and a Lot of "Swag" Recovered.

On the 10:20 local train from Broadway towards the city last night, Officer Wilson arrested John Smith *alias* John White, and Charles Wenzel, on a charge of burglary. They had entered the room of Mr. Hunt at the Eureka Hotel, and had stolen all the clothing and everything else in the room of any value, all of which they had in their possession when arrested. On the same train Mr. Wilson captured a thief by the name of John Elmer, who had on an overcoat taken from the ante-room of Live Oak Lodge (Masonic) at the corner of Eighth street and Broadway. Smith is known in Sacramento as James Cearn *alias* Conlan. Wenzel is an old offender also. At the time of making the arrest officer Wilson had no information that the burglaries had been committed.

Educational.

Two Committees of the Board of Education met last night—the Committee on Text Books, Music and Drawing, to arrange a programme for the teaching of drawing;—the Committee on Auditing and Finance, to prepare for their regular annual report which must be submitted on or before the first Monday in February next.

The initial number of the "Pacific Printer," an eight page journal devoted to the advancement of the printing interests of the Pacific Coast by the introduction of Scotch type, is at hand. It is a bright, newsy publication, brought out in the highest typographical art.

The crosswalks on Eighth, Eleventh and Twelfth streets, at their intersection with Broadway, are in a condition dangerous to the rapid passage of vehicles. Should a fire engine be driven over them, at a fair rate of speed, the city would be liable to pay a bill of repairs. The attention of the Council is called to the matter.

Two watches stolen from Mr. Hanifin's room at the Cosmopolitan Hotel in this city last Friday morning were yesterday identified at the Police Property Clerk's office, by Captain Rand. They had been found on the person of a Kearny street statue named Kelley, who was arrested in San Francisco for housebreaking.

He drew a diagram of the barroom where the encounter occurred, and gave a minute description of the struggle between the two enraged men. A. C. Dietz was called as the next witness for the prosecution, but the Court adjourned for recess before his testimony was concluded. The Court room is thronged with friends of the defendant and persons interested as to the result of the trial. The defendant is ably represented by Mr. J. A. Martin and Wm. POOR POORMAN!

A Husband Charged by his Wife with Adultery, After a Separation of Nine Years.

A warrant was issued yesterday from the Police Court for the arrest of David Poorman, of this city, on a charge of adultery preferred by his wife. The accused was promptly arrested, and held to appear this morning for examination, with bail fixed at $1,000.

THE WIFE'S STORY.

The aggrieved wife says that David deserted her in Yolo county nine years ago where he owned a ranch. On being thus left she struggled bravely against misfortune and poverty, and with the assistance of a sewing-machine contrived to accumulate enough coin to purchase a millinery store in San Francisco, which she still owns. Learning that her recreant husband had in the meantime acquired 160 acres of land, any quantity of live stock, mining shares and a "housekeeper," and that he was temporarily sojourning in Oakland, she came over to demand a fair division of the property. David won't divide.

THE HUSBAND'S STORY.

Mr. Poorman tells a different story. He says that the Yolo-county separation was a mutual agreement, and duly advertised as such in the newspapers. A lawyer had informed him that the advertisement answered all the purposes of a decree of divorce. Acting on this advice, he says he divided the common property with his wife—giving her $1,200 in gold coin and some other property. He says if there was any desertion it was on her part, as he never left the ranch until last Fall, when he came to Oakland.

PRESENT STATUS OF THE CASE.

When the case was called in the Police Court this morning, Mr. Christie, Poorman's counsel, stated that the defendant was not present, but would be forthcoming if wanted, and asked that the bail be reduced to $500. He did not think that even if the adultery were proven, the Court would consider it an aggravated case, inasmuch as the man had been separated for nine years from his wife. He did not think it would be regarded as a

VIOLATION OF ALL THAT SACREDNESS

And justice between man and wife that it would if Poorman had been living with his wife at the time. Mr. Poorman had only one friend here, and $1,000 bail seemed excessive under all the circumstances.

Judge Jayne said that it was not a case between the wife and Poorman, but a case between The People and Poorman. It was a felony or it was nothing.

A FELONY OR A MISDEMEANOR?

Mr. Christie, interrupting, said it was a misdemeanor.

The Judge said that Poorman had come into Court last night with two friends who represented him to be a man of means, able to give bail to any amount. It was not a case for this Court to try, but merely to examine. The Court could know nothing of the circumstances until it heard the evidence.

The case was set for Friday morning next.

Speculations in Regard to the Compromise Bill.

Positions of the Pacific Coast Delegation on the Bill.

Sharon, Page, Wigginton and Woodburn on the Fence.

Prospects of the Compromise Bill—Little doubt of its Adoption.

WASHINGTON, January 23d.—Speeches delivered in the Senate yesterday and to-day concerning the Joint Committee's Compromise bill have not materially changed the previous outlook as to its passage by that body; for although generally of the highest order of ability, their main arguments had been anticipated, and the personal or party influence in the Senate of Morton, Sherman and Cameron is not sufficient to more than counterbalance that of Edmunds, Frelinghuysen and Conkling, if indeed it can be considered equal The prospects for the bill's passage by the House are not as fully assured, however, as they were two days ago. Opposition seems to be increasing among both Republicans and Democrats, and it is whispered to-night in certain political circles that the Democratic majority may yet decide to kill the Compromise plan in the House, regardless of its adoption by the Senate. This prediction is based upon the expectation that so many Republican Senators will follow the lead of Edmunds, Conkling and Frelinghuysen, in committing themselves positively against the right of the Vice-President to count the votes as to make it impossible for the Republicans to fall back upon that doctrine after the House shall have surprised them by rejecting the Committee's compromise measure. The Democrats will, it is argued, then be in a position to compel acquiescence in the theory that no Electoral vote can be counted without the consent of both branches of Congress, and thus throwing the election into the House. This will make Tilden President. This plan of action, though quietly recommended by some extremists, is likely to meet with much favor. Especially as its adoption involves a general concealment of intention, and would throw suspicion on the Democratic members of the Joint Committee, and largely expose the party to the charge of trickery. The best informed observers are still unanimous in believing that, notwithstanding the opposition to the bill, it has made some progress in the House since Saturday. But there is no doubt of its passage by that body within a few days after its passage by the Senate, which will undoubtedly occur to-morrow.

Pacific Coast Delegation on the Bill.

Lane of Oregon to-day privately expressed his views on the Compromise bill. On a brief examination he regards it as an ingenious evasion of the Constitution, although framed in a spirit of compromise and genuine patriotism. The slightest invasion of the letter or spirit of the Constitution should be earnestly deprecated, but the adoption of this measure could not in any event produce such deplorable results as would surely follow a final disagreement of the two Houses, and therefore, while it is not yet certain how he will vote, he is somewhat disposed to favor it. All the Pacific Coast delegation having now been interviewed on the subject, their positions can be summarized as follows: In favor of the Compromise bill, Booth, Jones, Kelly, Lane; against it—Sargent, Mitchell, Sharon, Page, Wigginton, Woodburn. Doubtful or non-committal, Piper and Luttrell.

Boston Declares in favor of the Compromise Bill.

BOSTON, January 23d.—At the meeting at Faneuil Hall to-night to take action on the Compromise bill, resolutions were passed unanimously thanking the Committee for its able and important efforts in presenting a plan so commendable; cordially approving its spirit and provisions, and requesting Massachusetts Congressmen to support it. They especially approve the filling in of five Supreme Court Judges as calculated to meet the approval of the whole people; that the plan will allay excitement, restore confidence, and bring about a revival of industries, and will newly illustrate the strength of popular government. Speeches were made by E. R. Mudge, P. T. Collins, Madigan, Gordon and others. Four thousand people were present.

O'NEIL'S LUCK.

Two Fatal Blunders of the Prosecution.

The continued case of Michael O'Neil, charged with petit larceny and a prior conviction of burglary, came up again in the Police Court this morning for examination. Chas. Reed, County Clerk, was duly sworn, and the prosecution offered in evidence a judgment roll of the County Clerk for the January term, 1876. Mr. Christie, defendant's counsel, objected. The objection was overruled, and the judgment roll was read. It was to the effect that Michael O'Neil was convicted of burglary, committed in October, 1875, for which he was sentenced to one year's imprisonment in the State Prison.

The Prosecuting Attorney forgot to ask Reed if the defendant in the present case was the person mentioned in the judgment roll, nor was he identified in any other way. The prosecution and defense rested.

Then Deputy District Attorney McKee offered to re-open the case for the purpose of introducing Captain Rand to identify the defendant.

Mr. Christie objected, and the Court sustained the objection.

The case was then argued briefly and submitted—Mr. Christie claiming that the prosecution had made two fatal blunders.—two things were not proven: I. That the affair had been committed in Alameda County. II. That the defendant in this case was the person spoken of in the judgment roll as having been convicted of the crime of burglary.

The Court said it was not a case for him to try, but to examine. Evidence had been introduced sufficient to satisfy the mind of the Court that a crime had been committed, and the defendant had committed it.

The defendant was held to appear before the next Grand Jury, bail being fixed at $1,000.

Mr. Christie intimated that he should apply for a writ of habeas corpus.

Endorsements of the Compromise Bill.

Logan Withdraws from the Illinois Senatorial Contest.

Southern Investigation Reports.

Senator Conkling on the Electoral Bill.

WASHINGTON, January 24th.—Conkling said he had carefully reviewed the Constitution, law and precedents in this case some time ago. He was convinced that though there was a distinction in the meaning of the Constitution between the powers of the Senate and those of the House in counting the vote, that the President of the Senate could not count the Electoral vote, but that was the duty of the House. If the contrary was true, then this bill was worthless and unconstitutional; then every proceeding had heretofore by both Houses was a flagrant violation of the Constitution. He argued that the framers of the Constitution, so facile in language that language should be the echo of thought, would have inserted two little words if they had intended that the President of the Senate should count the vote. That officer had simply a ministerial act to perform, not a judicial. The State of Ohio had precisely the same formula in its Constitution, and yet both Houses assembled and canvassed the certificates, which the President of the State Senate opened. The counting of the votes was asserting the good from the bad. If New York had returned 45 votes they must be 35. If Massachusett's vote was for the Democratic candidate, the world knew it was wrong, and it must be righted. If one of the Electors voted for Julius Cæsar, late of Rome, or Harry the Eighth, inquiry must be made. He argued for the constitutionality of the bill, and that the American Congress was a safer repository of power than one man. Our forefathers never designed a one-man power. Conkling being unable to continue, Edmunds allowed the bill to go over until to-morrow, when he will call for a vote. Boutwell, Christiancy and Wallace were appointed members of the Conference Committee to perfect a revision of States. After an executive session, the Senate adjourned.

Description of an Elegant Structure Soon to be Commenced.

The lull of business which has been noticeable with builders for the past four weeks in this city, bids fair to be broken as soon as the weather becomes settled enough to allow of secure foundations being made whereon to erect substantial edifices. Among the numerous structures contemplated, stands prominently the building to be erected on the corner of Twelfth and Franklin streets. The property admirably located, is 100x100 feet in dimensions, and upon it will be erected by Dr. Samuel Merritt, the proprietor, a three story brick edifice, the plans of which are now being completed by Messrs. Stokes & Phillips, architects. There will be sixty handsome, commodious rooms upon the two upper floors, with closets, bathrooms, outside water closets, fireplaces and other modern conveniences. These rooms will be made into suites, and will be so arranged that any desired number may be leased or hired. An elevator will be an important feature in the building. On the ground floor there will be five commodious stores, each 24x100. Under the building a basement for storage, etc., will be arranged with excellent facilities for hoisting goods from its depths. The building is to be known as "Twelfth Street Block;" its outside will present a fine appearance, with elegant stucco work, on both the Twelfth street and Franklin street fronts. Work will be commenced, upon the building just as soon as the plans are completed, which will be in the course of a week or two. Workmen are now making excavations for the foundation. The total cost of the building will be in the neighborhood of $75,000.

Miss Gail Hamilton says gaily that her experience with free passes has been of the most short, slender, and spasmodic kind, but so far as it has extended it has been one of unalloyed delight. "It has always seemed a waste," she says candidly, "to pay money for going from place to place, because you want all your money to spend when you get there. I have never yet refused a railroad pass and, Heaven helping me, I never will!"

After Gen. James Watson Webb fought his duel with Tom Marshall he was indicted and sentenced to prison, but Gov. Seward listened to the appeal of a petition four hundred feet long and let him off. How many thousand feet long would be the petition to Gov. Robinson if Mr. Bennett was doomed to Sing Sing?

Stuart's Shoe Store.

In the year 1857 Daniel Stuart opened a small boot and shoe store in Oakland. It will seem scarcely possible to many old residents that twenty years have passed away since the first shoemaker settled in Oakland. The business of Mr. Stuart for a time was necessarily small, but he advertised and made known to the public the fact that he should keep up with the times. In 1860 he opened in the store on Broadway where he has, until the past week, continued to carry on business. His constantly increasing patronage compelled him to seek more commodious quarters, and he is now located at 1071 Broadway. His store is 26x95 feet in dimensions, and has a balcony which really makes it a two-story affair. An immense assortment of ladies', mens', and childrens' boots and shoes, of the best quality and manufacture can be found here. Besides, Mr. Stuart employs a force of experienced workmen and makes ladies' fine shoes or mens' boots to order. Mr. Stuart's present store is one of the finest in the State, and he has a stock on hand from which a selection may be made by the most fastidious. *

Vanilla.

Steele & Price annually consume, in the manufacture of Dr. Price's Extract of Vanilla, more of the finest quality of Mexican Vanilla than any other makers of extracts, and it is by the use of the finest quality that Dr. Price's Extract of Vanilla obtains its rare excellence. *

Lost.

On the five o'clock train from San Francisco yesterday a lady lost a dark red leather portmonnaie, containing gold and silver, a pearl and a jeweled ring, and other articles. The finder will be suitably rewarded by calling at this office. *

Cargo of Coal.

Freeman & Jaffe have just received a cargo of 300 tons of Coos Bay Coal, now landing and for sale in lots to suit. *

"The Present."

L. B. EDWARDS, who is an old and experienced fire underwriter has taken charge of the Oakland agency of the California Fire Insurance Company of San Francisco and the Royal Canadian Insurance Company of Montreal. These companies have a capital of $7,000,000, and do business outside of any "Board" or combination, and make a rate for every risk. The California is the oldest San Francisco company and has $200,000 invested in Oakland. The Royal Canadian has $100,000 deposited with the State for the protection of policy-holders, and is the only Foreign company having such deposit. For insurance in good companies and at rates proportionate to the risk, call at L. B. EDWARD's Insurance Agency, 907 Broadway, Oakland, Cal.

I am no longer tremulous and debilitated as when you last saw me, but stronger, heartier, and with larger capacity for labor, mental and physical than at any time during the last five years." Interesting.

Parties who have heretofore purchased account books in San Francisco, are earnestly invited to examine the stock and prices of them at the importing stationers, Strickland & Co., 1061 Broadway, near Twelfth street. Their stock embraces every kind in general use, and they will be very glad to duplicate any bill made across the bay. *

The New York Independent objects to the common statement that Commodore Vanderbilt was illiberal and deficient in public spirit. It should be remembered to his credit that he founded a university in Tennessee with an endowment of $1,000,000; built a church on Staten Island; maintained in New York City a free church for strangers; and he gave to the Government during the War his great steamship which cost him nearly a million dollars. The Independent is authority also for the remarkable statement that his benefactions which were never heard of averaged $1,000 daily for many years.

THE DANGERS OF MANHOOD.

Youth! whose ingenious spirit, just and kind,
Looks from that gentle eye, that open brow,
Wilt thou be ever thus in heart and mind,
As guileless and as merciful as now?
Behold this streamlet, whose sweet waters wind
Among green knolls unbroken by the plow,
Where wild flowers woo the bee, and wild birds find
Safe nests and secret in the cedar bough.
This stream must reach the sea, and then no more
Its purity and peaceful mood will keep,
But change to bitter brine, and madly roar
Among the breakers there, and toss and leap,
And dash the helpless bark against the shore,
And whelm the drowning seamen in the deep.

BREACH OF PROMISE.

An Oakland Couple Seeking Redress from Judge McKee.

The breach of promise case of Scholastique Serres against Charles A. Paris for $10,000 was called in the Third District Court yesterday and continued for one week. The plaintiff, who is a diminutive French woman nearly sixty years of age, and so lame that she can hardly walk, says in her complaint that about the month of May, 1873, she was a single woman residing in Oakland, and promised to marry the defendant, who was a widower, and so represented himself to the plaintiff. He renewed the promise to marry her several times up to the 16th of May, 1875, but he has since refused to do so, notwithstanding repeated solicitations by Miss Serres. The defendant says in his answer that he never promised to marry the plaintiff, and that she has sustained no damage whatever by reason of any conduct of his.

THE DIRECTORS OF THIS COMPANY have selected this tract of land as in their opinion the best adapted in all respects for accessible, cheap and beautiful country homes, of any within their knowledge. Calling your attention to the following description of it, they confidently solicit your subscription in any number of shares, from one to one hundred. Yours truly,

A. J. BRYANT, H. C. GASKILL, S. N. PUTNAM, JOHN D. YOST, E. W. WOODWARD, W. J. GURNETT, J. M. MINER,

A. J. BRYANT, President.

W. J. GURNETT, Vice-President.

This land is situated about eight miles from Oakland at the head of the San Pablo Valley, which is justly celebrated for the salubrity of its climate, its pure waters and natural beauties.

The San Pablo creek runs entirely through it, from South to North. Into this creek flow numberless smaller streams of clear, pure water, the banks of all affording the most elegant building sites possible to imagine. The great California necessity—plenty of cheap, pure water—is here as pure and plentiful as the air we breathe, and can never be wrested from us by any monopoly.

Its topography is gracefully undulating. The soil is rich and mellow. Natural shade trees abound.

We have also Mineral Springs, whose waters possess the medicinal qualities peculiar to the celebrated Lytton, Gilroy and Harbin Springs, heretofore neglected because so near home.

Within five years it will be reached by railroad in sixty minutes from San Francisco.

It will possess a Hotel equal to any outside of that city, and, surrounded by hundreds of beautiful homes, will become the greatest resort for all in search of health or pleasure.

We believe this land, now offered at Fifty Dollars per Acre, will at that time readily sell for five hundred.

Subscriptions will be received in San Francisco, by BRYANT & TAYLOR, 312 California street; JOHN D. YOST, Of H. S. Crocker & Co., 401 and 403 Sansome st.; T. H. HATCH, Sansome st., under Bank of Wells, Fargo & Co.

In Oakland, by— MINER & GASKILL, 472 Ninth street; WOODWARD & TAGGART, 400 and 402 Eighth street; C. E. GILLETT, At Mather, Milbury & Co., 907 Broadway; BOLTON & DODGE, Oakland Point.

OR BY ANY OF THE DIRECTORS.
